# Step 2— Click the “Download now” button with the firefox symbol near the toolbar

The screenshot shows the DNCLcheck website interface within a Mozilla Firefox browser window. The browser's address bar displays the URL <http://www.dnclcheck.com/index.php>. The website header includes the DNCLcheck logo and a navigation menu with options like HOME, ABOUT US, PRODUCTS & PRICING, FAQ'S, and CONTACT US. The main content area features a 'DNCLcheck Overview' section with a link to view a video, and two primary service sections: 'Single Number Check' and 'Bulk Scanning'. A sidebar on the right promotes a 'FREE! Single Number Check' with a 'Click Here and Register Today' button. A red arrow points from the text 'Click here' at the bottom to a 'Download Now' button with a Firefox logo, which is circled in red. The browser's toolbar is visible at the bottom of the page, showing various icons including the Firefox logo.

Step 3— You might see a message saying “ Firefox prevented the site([www.dnclcheck.com](http://www.dnclcheck.com)) from asking you to install software on your computer.” You need to click “Allow” on the right hand side

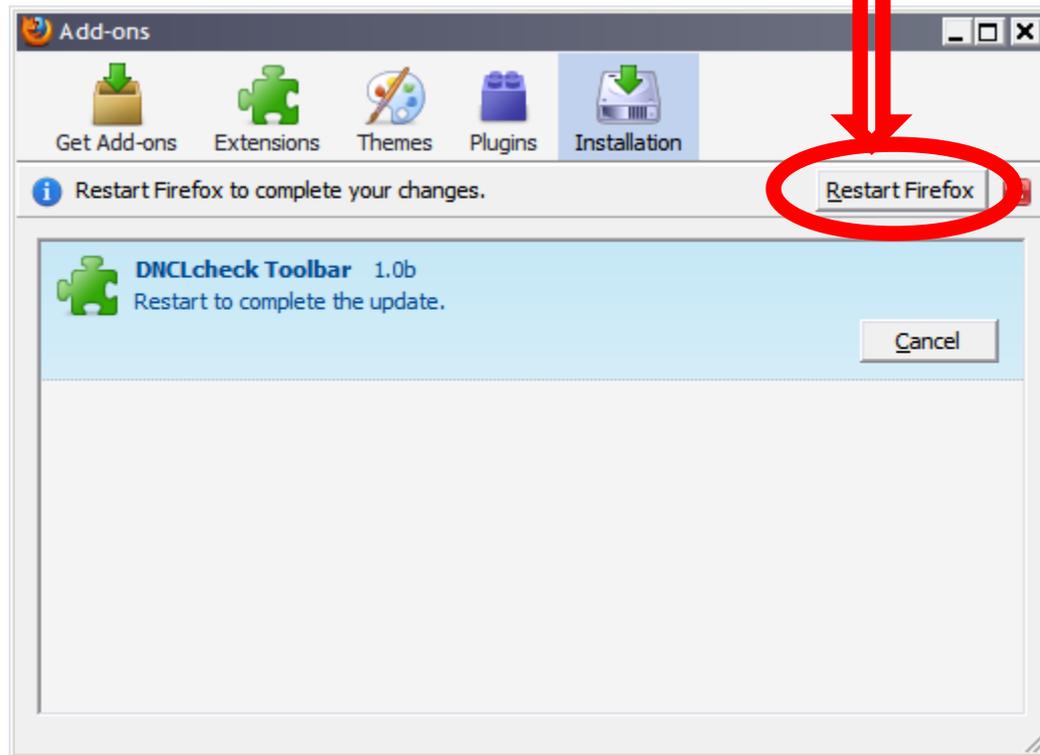

Step 4— You will receive another message providing you with this information. Click “Install Now”

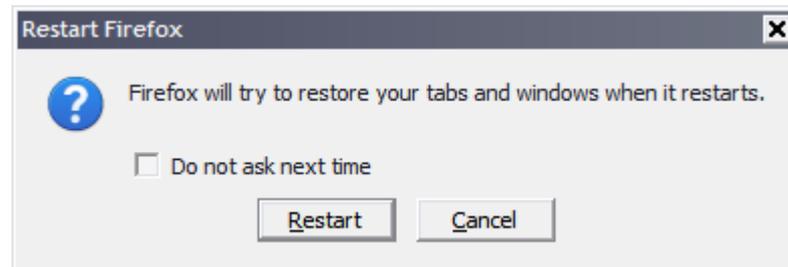

Click here

Step 5— At this point you will have a browser open.  
Firefox needs you to restart the browser.

Click here

Step 6— Firefox will restore the pages you had open so click re-start

Step 7— You should see the toolbar if not, call us and we can always walk you through the installation
